

Please do not let Indiana's Do Not Call Registry be weakened by allowing the CBA (Commercial Bankers Association) to be considered as having a "established business relationship." I feel that I am intelligent enough to contact a CBA member on my own if I desire to do any business or additional business with them. If they desire to contact me then they can do so by mail. I do not wish to have my private family time interrupted by unwanted calls. I urge you to keep Indiana's Do Not Call registry in full force. Thank You.
